DEC Memo:

"Contact phone number for Mario Accetta is not working. Site was a small 2 story house in the middle of the block on a lot 18ft x 100

ft. Apparently the house has been demolished and a new structure is going up at the site. Oil contaminated soil was discovered at the site by city DEP. Unknown if this was associated with a former buried/aboveground oil tank. CSL sent to property owner: Aizhu Chen 217 Ave U, Brooklyn, NY 11223 6/10/10-Vought-Above certified CSL returned to DEC on 10/8/07 with no signature. 6/11/10-Vought-Spill transferred from DEC Vought to DEC Ketani as per DEC Austin and Vought transfer to Section A. 8/25/10 - Raphael Ketani. I made an unannounced site visit. The site was a fairly recently constructed two story building that is bounded by other similar commercial buildings (see E-docs). There was a dry goods/home supplies store at the street level and rooms at the second, top level. I entered the site and didn't sense any odors. I went downstairs to the lower level of the store and, again, didn't sense any odors. The floor was tiled with one foot square ceramic glazed tiles. They were solidly fixed in place. I went to the back storage area and didn't sense any odors. There was no basement, but the lower floor level was as deep as the basement of a home would be. 8/26/10 - Raphael Ketani. The site is

owned by Aizhu Chen who lives at the site, presumably above the store. As there were no signs of an oil spill, nor any odors, and as the floor appeared to be sealed by the tile work, I have determined that there is no threat to the public or the environment. Therefore, I am closing the spill case. "
